Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,5-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Oyama 5,031252.

Oyama discloses a pressurized container 13 containing a mixture of disinfectants (col. 3, ll. 67-68 onto col. 4, ll. 1-25).

3. Claims 1 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Burger 4,431,120.

Burger discloses a pressurized container containing a mixture of disinfectants, where the mixture is in semi fluid (col. 1, ll. 9-68 onto col. 2, ll. 1-34).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 2-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Oyama 5,031,252 in view of Alliger 4,084,747.

Oyama has all the features of the claimed invention except that the disinfectants are selected from chlorine gas. Alliger teaches that it is known in the dispensing art to use chlorine gas as disinfectants (col. 1, ll. 11-30).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to utilize Alliger's teaching onto Oyama's container by using chlorine gas, in order to provide a cleaning, sanitizing disinfecting and germ-killing products, as taught by Alliger (col. 1, ll. 11-30).

Response to Arguments

6. Applicant's arguments filed 9/29/2003 have been fully considered but they are not persuasive. Applicants argue that the references of Oyama and Burger do not disclose, "carbon dioxide is mixed with the disinfectant" as clearly indicated in claim 1. Applicants should note that claim 1 consists of multiple alternative claimed limitations such as "a mixture of disinfectans" or "biocides and carbon dioxide in the form of a vapour, liquid/vapour mixture" or "supercritical fluid". Therefore, the references of Oyama and Burger meet at least one of the above limitations as stated in the above rejection. Any remaining arguments have been fully addressed in the above rejection.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 3754

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
